

Help
Our
Garden
Grow

Join Us Today!

At COPIA we're about sustainable growing practices, teaching kids about gardening, and bringing the knowledge of food and wine to everyone – from the ground to the table, we inspire personal growth of mind, and literal growth in our 3 and ½ acres of edible organic gardens.

COPIA
THE AMERICAN CENTER
FOR WINE FOOD & THE ARTS

We Inspire Growth

Americans have been separated from the earth for too long – and in the tradition of our founder Julia Child's cooking, and founder Robert Mondavi's winemaking, we bring the experience of eating sustainable food that is seasonal, locally produced, expertly prepared and paired with fine wines. Robert Mondavi once called this "the good life" and indeed, at COPIA, we're spreading the word that the "good life" is for *everyone*.

Last year, COPIA Members at all levels contributed half of what we need to operate. From helping to grow our COPIA KIDS Garden, supporting world-class culinary and wine experiences, to funding special exhibitions, COPIA Members provide vital operating funds that make it possible for everyone to experience the unique discovery center that COPIA is.

Nothing in the world is quite like COPIA, and as a member you become part of something truly unique.

Won't you help our garden grow?

Get FREE admission into select San Francisco Museums at the *Family* level!
